Third Quarter 2011 Results

Total investment income was \$6.0 million in the three months ended September 30, 2011, an increase of \$1.6 million, or 37.3%, over the \$4.3 million of total investment income for the three months ended September 30, 2010. This increase was primarily attributable to greater interest and fee income on higher average levels of debt investments.

Total expenses were \$3.3 million in the third quarter of 2011, an increase of \$1.0 million, or 42.5%, over the \$2.3 million in the corresponding period in 2010. The increase was primarily attributable to increased incentive and administrative service fees as well as higher interest expense, professional fees and other general and administrative expenses, partially offset by a decrease in the management fee after offset. The increase in incentive fees of \$0.5 million and administrative fees of \$0.2 million as well as the decrease in management fees after offset of \$0.3 million were primarily due to the new Investment Advisory and Administration Agreements put in place with the Formation Transactions. Interest expense increased \$0.1 million during the three months ended September 30, 2011 compared to the prior year period as a result of higher outstanding balances of SBA debentures. Professional fees increased \$0.3 million primarily due to higher legal and accounting costs following our IPO. Other general and administrative expense increased \$0.2 million primarily due to higher legal and accounting costs and board of director fees associated with being a publicly-traded company.

Net investment income for the three months ended September 30, 2011 was \$2.7 million, an increase of \$0.6 million, or 31.4%, over the \$2.0 million of net investment income for the corresponding period in 2010. Net investment income per share for the three months ended September 30, 2011 was \$0.28.

Net change in unrealized appreciation on investments was \$0.5 million, or \$0.05 per share, for the three months ended September 30, 2011, compared to net unrealized appreciation of \$1.7 million during the three months ended September 30, 2010. Portfolio investment valuations increased overall due to continued operating performance improvement in the portfolio.

Net increase in net assets resulting from operations was \$3.1 million in the three months ended September 30, 2011, or \$0.33 per share, compared with a net increase of \$3.7 million in third quarter of 2010.

Liquidity and Capital Resources

On July 14, 2011, the underwriters of our IPO purchased 700,500 shares of the Company's common stock at the IPO price of \$15.00 per share to cover over-allotments, resulting in proceeds to us of \$9.8 million, net of underwriting discounts.

At September 30, 2011, we had \$51.9 million in cash and cash equivalents and \$96.8 million in SBA debentures outstanding. The SBA debentures have an annual weighted average interest rate of 5.3% as of September 30, 2011.

Quarterly Dividend of \$0.32 Per Share Declared

The Company announced today that its Board of Directors has declared a quarterly dividend of \$0.32 per share. This quarterly dividend is payable on December 20, 2011 to stockholders of record as of December 6, 2011.

Those stockholders whose shares are held by a broker or other financial intermediary may receive dividends in cash by notifying their broker or other financial intermediary of their election.
